1.   Remove,comment and reply comments (Important)
     (Super-admin profiles should be able to perform this function)

4. New reply comment should come below of previous reply comment, need same setting in comments section as well

5. Need a bold button in create a post pop up to make heading while creating a post

7. Increase the character limit to 6000

9. Create a post pop up vanishes if we accidentally touch, data entered in text box should not get deleted

Error-
 1. One is not able to search topics in Home>My Profile>Create Post>Search Topic
 2. Paragraph problem while editing a posted post
 3. Tagging error (suggestions are not going away after deleting tags)

Please use the method which occurs less cost
